WORK EXPERIENCE

Product Design Intern
MongoDB
New York, NY
May 2017 - August 2017

Cross-collaborated with Product Management and Engineering to drive design focused on MongoDB's cloud service Atlas
Designed the interaction to enable Atlas customers to upgrade from free to paid
Conducted 30 user-tests over 8 design iterations of a key feature in MongoDB's winter release that was overseen by CTO and VP of Engineering
Created design to educate developers on useful Atlas command line tools
Invented interactive restart primary experience, which emphasized in-app education

Design Intern
Desai Accelerator
Ann Arbor, MI
May 2016 - August 2016

Assisted 6 tech-enabled startups in a 16 week program and completed over 40 digital projects
Established identity for Demo Day by leading design consultations and building out 6 unique pitch decks reaching audiences of 300+
Designed the web-interface for the #1 ranked swimming application in the United States that supports 500,000 users

Brand Development Intern
Travelle.co
New York, NY
July 2015 - April 2016

Managed 5 social media outlets focusing on online outreach & optimization through keyword analysis increasing followership by 2x
Created & launched an e-commerce page using market affiliations
Improved web interface and overall SEO resulting in a 35% increase in online traffic
